

BEFORE I'M GONNA LET YOU GO

Music by : Kustas Kikerpuu - English lyrics by: Alan Roy Scott

How many times can we end up this way?
Here in the dark not knowing what to say
When did our living color turn to gray
and the heat of passion turn so cold?

It doesn't really matter who's to blame
We both have played our part, it hurts the same
But I still see a love worth being saved
Before I'm gonna let you go

You're in my heart
Deep in my soul
I know that never will change
Sometimes what's lost
can still be found
Endings can be rearranged

Maybe "forever" dreams don't always come true
I say that all depends on me and you
And I'll try everything that I can do
Before I'm gonna let you go

You're in my heart
Deep in my soul
I know that never will change
Sometimes what's lost
can still be found
Endings can be rearranged

Here's to the future that's not written yet
Whatever happens I'll have no regrets
Just know I love you and wish for the best
before I'm gonna let you go
