

„ Dance „
Music by Uno Loop - Lyrics by Pamela Phillips Oland

Dance! See how my arms
Grow so cold waiting for you
To end where I begin - close as my skin

Dance! Don't waste a note
Of this sweet and magical tune
Come Dance! Y' like what you see
Curve into me

Your eyes sparkle and shine
And we've drunk the moonlight and wine
Two dreams - joining as one - I'm undone
If you should walk away and say you
Never felt it when the music found us
Let it lead where music always must
Just - follow your heart - Baby, let's Dance!

(musical interlude)

Dance! Fall into me
Cause tonight was made for romance
Your hips - swaying in time - moving with mine

Dance! Pressed cheek to cheek
Cause no words are left to speak
Our eyes have said it all - Let the song call

(Can I) dream - looking at you -
What the music's leading us to
Hesitate - the moment is lost - My heart would burst
If you should walk away and say you
Never felt it when the music found us
Let it lead where music always must
Just - follow your heart - Baby, let's Dance!

Say you felt it when the music found us!
Let it lead where music always must
Just - follow your heart -
Baby, let's Dance!
