

„ Something Right „

Music by: Arne Oit / Lyrics by: Harold Payne

**If I never do anything
More in my life
It means all the world to me
That I did something right**

I remember the first time I saw you
What a beautiful sight
It seemed like the moon was surrounding you
In a halo of light
You turned & looked back
I stopped in my tracks
And I knew it then & there

**If I never do anything
More in my life
It means all the world to me
That I did something right
I followed my feelings
For one time in my life
If I never do another thing
I'll know that I
Did something right**

I couldn't believe my good fortune
To have this moment in time
I summoned up all of my courage
I had to give you a sign
I walked up and said
I just couldn't let you leave
without letting you know

**If I never do anything
More in my life
It means all the world to me
That I did something right
I followed my feelings
For one time in my life
If I never do another thing
I'll know that I
Did something right**
