

„ The One „

## Music by Arne Oit – Lyrics by Philip Cody

You hear her whisper in the dark  
You see her image after turning out the light  
You feel the music of the beating of her heart  
And now this time it's gonna be all right

Her touches tease away your cares  
Her kisses help to make it easier to breathe  
You tell yourself there must be something in the air  
That makes it very plain to see

She is the one  
The one that makes you feel so good  
She is the one  
The only one who could  
Turn days and nights  
Into the happiest moments of your life  
And now you're telling everyone  
This one is the one

At first, you didn't realize  
The day you met was such an ordinary day  
You didn't know that when you looked into her eyes  
That you could ever be so swept away

Her laughter takes away the pain  
Her passion leaves you feeling absolutely free  
You tell yourself there's nothing more to be explained  
It's all so very plain to see

She is the one  
The one that makes you feel so good  
She is the one  
The only one who could  
Turn days and nights  
Into the happiest moments of your life  
That's why you're telling everyone  
This one is the one

Turn days and nights  
Into the happiest moments of your life  
That's why you're telling everyone  
Telling everyone

Telling everyone  
Tell them this one  
Is the one
